Personal Statement

As a software engineer with 5 years experience , I specialize in Web and Mobile App development. My expertise lies primarily in JavaScript and its ecosystem, including frameworks such as React, React Native, TypeScript, Next.js, Node.js, and Express.js. I am adept at building highly scalable, maintainable, and efficient applications, adhering strictly to industry standards and best practices. As a team player, I excel in communicating effectively with both technical and non-technical stakeholders, fostering a collaborative and productive working environment.

Experience

React Native Engineer (Contract) **Verofy Supplies Ltd.** *Manchester, UK* **01/2024 - 03/2024**

Key Technologies : [React JS](#), [React Native](#), [TypeScript](#), [Tailwind CSS](#), [Redux Toolkit](#), [React Query](#), [Jotai](#)

- Designed and Implemented new features to Verofy Payment App leveraging React and React Native.
- Solved various bugs on existing Live Application and released to AppStore and Playstore improving performance by 30%.
